DUBLIN, June 16.—The Parnellites are  
organizing for the purpose of holding a  
monster demonstration to show their  
pleasure at the departure of Earl Spencer,  
the lord lieutenant, from Ireland on  
Saturday next.

CONSULTING.  
LONDON, June 16.—Lord Randolph  
Churchill is holding a conference today  
with the Marquis of Salisbury. It is re-  
ported that the subject under considera-  
tion is the necessity for an extension of  
the crimes act.

NOTHING DONE.  
LONDON, June 16.—The conservatives  
appear reluctant to take office until the  
opinion of the whole party can be taken.  
The Marquis of Salisbury will confer  
with the queen to-morrow. In the  
meantime nothing will be done.

LONDON, June 15.—Mr. Gladstone  
was in his usual place in the house of  
commons, this afternoon, and was  
greeted with cheers when he rose to  
make an announcement. This was  
that the marquis of Salisbury had  
consented to form a government. Mr.  
Labouchere, radical, asked Mr. Glad-  
stone if there was any truth in the pub-  
lished report that the marquis of Salis-  
bury had only consented to form a  
conservative ministry when assured of  
assistance by the present liberal gov-  
ernment. Mr. Gladstone in reply as-  
sured Mr. Labouchere that he (Mr.  
Gladstone) was ignorant of the exist-  
ence of any arrangement whereby the  
present government was bound by any  
promise to assist a conservative gov-  
ernment. The house then completed  
the remaining stages of the bill  
granting an annuity to the Prin-  
cess Beatrice on the occasion  
of her marriage and accepted the  
amendments made by the lords to the  
redistribution of seats bill. On motion  
of Mr. Gladstone, however, that was  
adjourned until Friday.

Lord Randolph Churchill managed  
to get to the residence of the Marquis  
of Salisbury just before the meeting of  
the conservative leaders had dissolved.  
The Marquis of Salisbury explained to  
the meeting his interview with the  
queen and hoped he would have the as-  
sistance of his colleagues to form a  
cabinet. The almost unanimous  
opinion expressed was in favor of the  
acceptance of the office by the con-  
servatives.

Earthquake shocks continue through-  
out the Vale of Cashmere. There are  
from eight to ten shocks daily. The  
violence is, however, abating.

LA LIBERTAD, June 15.—Insultory  
firing was heard near La Libertad last  
night, and it is believed that the firing  
parties are approaching the coming  
Pacific mail steamer, which is bringing  
one hundred Nicaraguans. There is  
no United States war vessel here. It  
is said the war is being carried on with  
the usual barbarities of civil war.  
General Brion was lacerated by the  
Indians. Montrose and Parillo are  
both prisoners. Letonag will hold  
Abnuchapan, notwithstanding the re-  
ported attacks. It is certain that  
Rivas too Capatzenque on Saturday.  
If Montrose is beaten there is almost  
sure to be a civil war in Guatemala.

PARIS, June 15.—At a meeting of the  
budget committee M. Sadi Carnot,  
minister of finance, stated that the  
floating debt of France was now 1,400,  
000,000 francs, and that next year the  
deficit in revenue is likely to be 300,  
000,000 francs.

The Budget commission has adopted  
M. Sadi Carnot's proposal to issue  
treasury bonds to the amount of 320,  
000,000 francs, to mature in thirty  
years.

Later dispatches state that Admiral  
Courbet died of bilious fever on Pen-  
cadores Island.

Berlin, June 15.—The death of  
Prince Frederick Charles has made

necessary the postponement of the  
"audience," which Emperor William  
had appointed to Hon. George H. Pen-  
dleton, the new minister of the United  
States.

VIENNA, June 15.—The Austrian gov-  
ernment has refused to give its sanc-  
tion to the organization of private  
cremation societies. The government  
takes the ground that such societies  
are calculated to increase crime.

TIENTSIN, June 15.—The emperor of  
China has ratified the "Peking treaty"  
of peace with France.

CONSTANTINOPLE, June 15.—Anarchy  
prevails in Crete.

ST. PETERSBURG, June 15.—Serious public  
disturbances have taken place in the  
kingdom of Bootans. The cause is not  
made known.

THE CHOLERA.

By Telegram to THE SENTINEL.  
OTTAWA, Ont., June 16.—The crown  
council, who are to conduct the prosecu-  
tion on behalf of the government in the  
Heil trial are here receiving instructions  
and up to the present moment the date  
of the trial has not been fixed.

THE CHOLERA.

By Cable to THE SENTINEL.  
MADRID, June 16.—There were five  
new cases of cholera in the city yester-  
day and one death from the same dis-  
ease. In the city of Valencia there  
were two fresh cases but no deaths. In  
the province of Valencia, however, out-  
side the city there were forty-eight new  
cases and twenty-seven deaths. The  
city of Murcia reports forty new cases  
and seven deaths, while other parts of  
the province of Murcia return twelve  
fresh cases and four deaths.

The charges of speculation gross  
favoritism, etc. made against the man-  
agers of the government insane  
asylum have been examined by the  
board of visitors and pronounced un-  
founded.

HE DID IT.

By Telegram to THE SENTINEL.  
PHILADELPHIA, June 15.—Joseph  
Cottinger, the former secretary and  
treasurer of the Central Transportation  
company, who is charged with  
illegally issuing certificates of stock  
of that corporation, and who was ar-  
rested at Buskill, New York, on Saturday,  
was brought here this afternoon. He  
was taken to the office of the company  
and there confessed his guilt to the  
directors and stated that he did not  
ask for mercy. Cottinger was  
where testimony was presented, showing  
that there had been an overissue  
of 3,055 shares of stock, the par value  
of which overissue is \$154,250. When  
asked by the magistrate if he had coun-  
sel, Cottinger replied that he had not  
and that he did not want any. The  
magistrate then committed him in  
\$50,000 bail to answer at the term of  
court. This amount of security could  
not be furnished and Cottinger was  
sent to jail.

AN INJUNCTION GRANTED.

By Telegram to THE SENTINEL.  
MEADVILLE, Pa., June 15.—James  
McHenry, his highness, the Prince of  
Cortovyski, of Paris, France, and the  
Right Honorable Viscount Berry, of  
London, England; John Bellingier, of  
Philadelphia, on their own behalf and  
the behalf of others interested in the  
stock or bonds of the New York, Penn-  
sylvania & Ohio railway company, sus-  
pended Saturday, the 13th, in Prothono-  
tary's office, this city, a bill in equity  
against the railway company, direc-  
tors, trustees and reorganization of the  
trustees. They pray for an injunction  
to restrain the voting trustees from  
voting their stock and from voting  
themselves any pay for services, and  
from further issuing bonds in the  
capacity of trustees. Pending hear-  
ing, June 23, a preliminary injunction  
was granted.

**Presented in the Diagnosis of  
General Grant's Case.**

By Telegram to THE SENTINEL.

New York, June 16.—The Sun this  
morning says that very many of those  
who are informed as to General Grant's  
actual condition look upon the plan of  
removing him from a comfortable home  
with grave misgivings. That his life-  
now hangs by a very slender thread there  
is little doubt among them. His throat  
in one aspect was worse last night than  
it has ever been before. Col. Fred  
Grant told a reporter last evening that  
his father had totally lost the power of  
speech. He is still able to articulate  
faintly, but even those who are most ac-  
quainted with his mode of speech cannot  
make out what he says, except at very  
brief intervals when his throat was  
temporarily clogged with mucus. This  
is something that has never happened  
before and it is a development of the  
past twenty-four hours. It is said by  
those who are well informed that his  
mouth can no longer be opened suf-  
ficiently wide to enable a successful ocu-  
lar examination and when they feel of  
the affected parts they give the patient  
such excruciating pain that they refrain  
from it as much as possible. His face  
retains to a great degree its natural  
fullness, but aside from this he is but a  
shadow of himself. His body  
is wasted almost to a skeleton  
and the bones of his hands and  
wrists show through the tightly drawn  
skin with the ghastly distinctness  
of consumptives. That which most  
shocks those who of late have seen the  
general is the great malignant looking  
swelling which has appeared on his neck,  
under the right ear. It has, of late,  
grown with great rapidity, and now is  
as large as a man's two fists put together.  
It is kept concealed most of the time by  
wraps about the general's throat.

OFF FOR MOUNT MCGREGOR.

New York, June 16.—William H.  
Vanderbilt's private car was the last of  
the three which made up the train to  
convey General Grant to Mount Mc-  
Gregor. General Grant arrived at the  
depot about 9 o'clock and at once en-  
tered the Vanderbilt car and took his  
seat on a sofa. With his own hands he  
adjusted his woolen skull cap and drew  
closer the neck scarf so as to conceal the  
ugly swelling that filled out the right  
side of his neck even with the ear. He  
watched with apparent interest the  
movements of Dr. Douglas and Har-  
rison, who were arranging the  
chairs and bags, so the general should  
be as comfortable as possible  
during the trip. The heavy drapery was  
so arranged as to prevent any draughts  
from reaching the sick man. Mrs.  
Grant sat at the general's right hand and  
he was ever under her watchful eye.  
The ride through the tunnel in the city  
was the worst that was to be experienced  
during the entire trip. The sharp curves  
shook the car shille, but the care of the  
engineer prevented any shaking that  
could disturb the general. Mrs. Fred  
Grant and Mrs. Ulysses S. Grant and  
Mrs. Harrison were also in the car, while

the children of the household were under  
the care of Col. Fred Grant in a forward  
car.

General Grant passed a restless night  
and this morning looks much depressed  
and emaciated, and while he watches  
everything that is done he does not  
speak a word.

ANTHONY WAYNE.

HARRTOWN, N. Y., June 16.—Col.  
Fred Grant was half reclining on a sofa  
with Doctor Douglas and by the gen-  
eral's side when Stony Point was passed  
at 9:40. "When Anthony Wayne storm-  
ed Stony Point," shouted Colonel Grant  
above the clatter of the train and so the  
physician and his patient could hear:  
"My great grandfather, Captain Dent,  
was commander of the 'forlorn hope'  
and when they reached the walls  
he had his men to stand  
on each other's shoulders and then the  
captain scaled the rampart over their  
backs and stood on the wall and  
pulled his men up, one by one, over the  
human ladder. They then descended  
and opened the gates of the fortress and  
let in Wayne's men." The general in-  
clined his head aside and smiled faintly  
at the relation of the incident. "And  
up here at Ticonderoga," continued the  
colonel, "Father's great-grandfather and  
brother were killed in the French-En-  
glish war, about 1751." The general  
heard and nodded assent.

PASSING WEST POINT.

About 10 o'clock General Grant  
turned a little in his chair in order  
that he might command a better  
view of the west bank of the river. He  
wanted to gain a glimpse of West Point  
as the train hurried on. The scenes  
were growing very familiar to the sick  
man. Scenes of his childhood were com-  
ing to view at length. At 10:10, when the  
quarters at West Point swept into view  
the general nodded across the  
river and again faintly smiled as  
Mrs. Grant glanced across at him  
to see if he was noting the point they  
were passing. He smiled as he nodded.  
The ladies hurried to the river side of  
the car to watch. Col. Fred Grant  
pointed out a pile of rocks which he had  
heard his father mention in telling his  
swimming adventures of his student  
days. The general spoke no word but  
followed the scene with his eyes looking  
rearward until West Point was shut out  
from view by the curve of the road.

HE ATTEMPTS TO SPEAK.

Once the general pointed to a resi-  
dence on the west bank of the river and  
leaning toward Col. Fred Grant, at-  
tempted to speak and tell him it was the  
house of a friend at which in past years  
he had been entertained, but so weak  
was his voice that the general could not  
make himself heard.  
Dr. Douglas requested him not to  
make any effort to speak and bade him  
to write what he had to say, which the  
general did.

HE IS DOING WELL.

At 12 o'clock Dr. Douglas said: "I  
have made no effort to feel his pulse. I  
could not do so while the train is in mo-  
tion. He is showing less fatigue than  
might have been expected. I am an-  
xious to reach the mountains so I can  
clear his throat of the dust which is try-  
ing to him here. He is feeling the heat,  
but his strength is holding out remark-  
ably well."

AT SARATOGA.

SARATOGA, June 16.—The special train  
bearing General Grant arrived on time.  
A great crowd was at the depot trying to  
catch a sight of the general. He was  
visible but a moment as he stepped from  
the train that had brought him from New  
York to the one that was to convey him  
to Mount McGregor.

Post Wheeler, U. S. A., in full uni-  
form acted as guard to keep the crowd  
back.

HE STOPS.

MOUNT MCGREGOR, June 16.—General  
Grant arrived here at 2:45 p. m. The  
last stage of the journey was the worst.  
The jolting caused the general much  
pain and fatigue.

A New Railroad in Utah.

By Telegram to THE SENTINEL.  
SALT LAKE CITY, Utah, June 16.—A  
certificate of incorporation has been  
issued to the Utah and Wyoming Central  
road, capital stock \$5,000,000. The ar-  
ticles provide for the construction of a  
broad gauge road, north from Salt Lake  
City to the shore of the Great Lake in  
Davis county, thence to connect with  
transfer boats to operate on the lake.  
The railway line is to run to a point on  
the boundary line between Utah and  
Wyoming at or near the mouth of Twin  
creek. A similar organization has been  
formed in Wyoming for an extension of  
the line into that territory.

By Telegram to THE SENTINEL.  
MASON CITY, Iowa, June 16.—The  
house and barn of Matthew Reddy,  
several miles from here in the country,  
were carried away in the storm Sunday  
night. The family had a terrible ex-  
perience. There are hardly boards  
enough left about the homestead to  
build a fire. Not a bit of furniture nor  
a stitch of clothing can be found and the  
wreck is complete. Mr. Reddy's family  
was buried into a field when the house  
went to pieces. Mr. Reddy was left in a  
sitting position on the ground. On  
looking around he saw by a flash of  
lightning that his brother was stretched  
dead some yards away. He picked him  
up and carried him into an underground  
milk house. He then commenced a search  
for his wife and found her in her night  
clothes some ten rods from the house, in  
a cornfield. She was also carried to the  
milk house. He next looked for his  
five-year-old boy, searching by the light  
of electric flashes, and at last discovered  
the infant thirty rods from where the  
house had stood. The boy was almost  
driven into the mud. When all were  
gathered into the milk house their in-  
juries were discovered to be severe.  
The mother and child will hardly live.

POISONED HER HUSBAND.

By Telegram to THE SENTINEL.  
CINCINNATI, June 16.—June 6th Mar-  
tin Edgars, a laborer living at Hamburg,  
Tribble county, Ohio, was taken sick after  
eating lettuce for supper. June 11th he  
died in great agony, soon after taking  
some powders prepared by his wife.  
Yesterday she was arrested and last night  
was sent to Eaton to jail without bail.  
She confessed last night she gave the  
poison, arsenic, to her husband at the  
suggestion of Wm. Howe, a man with  
whom she had been intimate for some  
time. Howe is not to be found. She  
says he made her promise, before he  
went away, to poison her husband. Still  
she maintains the arsenic did not kill  
him and is not much concerned, appar-  
ently, about her situation.

Brickner and William Nemyer were at

were met by William Montgomery and

so that both may die. Wright, one of  
the assailants, has been arrested. Mont-

about 35 degrees gravity. The land all  
about is already lowed.

Up to the middle of May heavy snow  
storms were raging.

By Telegram to THE SENTINEL.  
PITTSBURG, June 15.—At Schenzen

young German, was shot and killed by  
Edward Slattery. The latter snatched  
a woman's purse and managed to es-  
cape. Ryer and others gave chase,  
and the thief finding himself in close  
quarters, drew a revolver and fired into  
the crowd, the ball taking effect in  
Ryer's breast, killing him almost in-

OFFICIAL PAPER COUNTY AND CITY.

TUESDAY, JUNE 16, 1885.

It will be a sad loss for the city of Fort Wayne to lose the Kerr Murray shop.

The Indianapolis Journal says C. A. Zollinger is at Washington City urging his appointment to the office of state pension agent.

GENERAL BLACK has issued an order that the board of pension examiners must be composed of two democrats and one republican.

A PROMINENT New York merchant, after twenty years' experience, states that the only kind of advertising that does any good is newspaper advertising.

VICE PRESIDENT and Mrs. Hendricks left Washington yesterday afternoon for New York. Mr. Hendricks is called for an address at Yale college during commencement week.

CAPT. WM. HAYDEN, of Elkhart, has been commissioned as colonel of the fourth regiment, Union Veteran legion. He will proceed to organize it at once in the Twelfth and Thirteenth districts.

COLONEL BRINGHURST, the new mayor of Logansport, showed the metal he is made of by collaring a couple of drunken rowdies, throwing them upon a passing street car and bringing them to prison himself.

A FARMER of Montgomery county obtained a judgment of \$1 against a gravel road company, because their agent forcibly backed his team as he was trying to pass through the toll-gate, he having refused to pay toll.

HON. GEORGE W. JULIAN, lately appointed surveyor general of New Mexico by President Cleveland, will leave for Santa Fe, where he expects to reside, about July 1. His family, consisting of a son and daughter, will accompany him.

SEVENTY-FIVE acres of land have been discovered in Fulton county belonging to the state. In 1833 the land in question layed to the state by the foreclosure of a mortgage to secure a loan from what was then known as the "Indianapolis fund," and since then it seems to have been entirely lost sight of until a recent inquiry was made. The property now has considerable value and will probably be sold.

CHARLES ANGEL, who some years ago was convicted as a defaulter of the Pullman Palace Car company, served his time out in the Joliet penitentiary and has been released. He was immediately offered a lucrative position as book-keeper and cashier of two other companies, on account of his aptness and experience, having as he assumed and as they believe fully repented and atoned for his past misdeeds.

The Kentucky supreme court has just decided that a contract made by telephone is valid and can be sustained in court. It has been supposed heretofore that the difficulty in sustaining an agreement made between parties miles apart would arise from the want of proof that the parties who did the talking over the wire were the persons they represented themselves to be. In the case decided the operator at one end of the line did the talking for the principal and reported the conversation in the hearing of witnesses, whose testimony the court admitted on the ground that the operator acted the part of an interpreter. The same question is in dispute in some other states, but Kentucky is the first to furnish a judicial decision upon it. As precedents are apt to be followed in law it is quite possible that the Kentucky decision may be accepted by the courts of other states.

R. M. T. HENRY, the new collector of customs for the district of Tappahannock, Va., has a remarkable history. Forty years ago he was speaker of the house of representatives and was subsequently elected to the United States senate, where he served for fourteen years, until July, 1861. He was secretary of state of the Confederacy and a member of the Confederate senate. He

was afterward treasurer of the state of Virginia, which office he held until 1861, since which time he has been living in retirement on his small farm in Essex county. He is now about seventy-six years of age. In 1860 he was a candidate for the presidency before the Charleston convention. The office to which he is appointed pays \$250 a year with fees and commissions, amounting in all to less than \$1,000. Mr. Hunter was appointed to the office on his own application.

ONE of the dissatisfied Wagner sleeping-car conductors who have resigned, says: "Why, if one of the boys appeared at the depot to take his car without first providing himself with a clean stand-up collar, he was laid off from duty for ten days as a punishment. Then, again, if he was reported as having held unnecessary conversation with his brother conductors while traveling on the road, or had been guilty of spending much time in one of the state-rooms, he would suffer the same punishment."

A LETTER from Mexico says the poverty of the country may be traced directly to the slovenly system of farming which prevails. The agricultural resources are enormous. Though only one-fifth of the best land in the great plateau is under cultivation, it supports millions of people with a style of farming that would produce starvation in the best sections of New York or Pennsylvania. The Mexican's sole conception of the utility of plowing is to scratch up enough loose dirt to cover the seed; in a great majority of cases the ground is never touched after plowing.

Gov. WARREN, of Wyoming, says that woman suffrage has not lowered the character of public officials in that Territory. On the contrary, the women consider much more carefully than men the character of the candidates, and both political parties have found themselves obliged to nominate their best men in order to obtain the support of the women. "As a business man, as a city, county, and Territorial officer, and now as Governor of Wyoming Territory," he adds, "I have seen much of the workings of woman suffrage, but I have yet to hear of the first case of domestic discord growing out of it. Our women nearly all vote, and since, in Wyoming, as elsewhere, the majority of the women are good, and not bad, the result is good, and not evil."

THEY are collecting the remains of great musicians to inter them in the new cemetery at Vienna. But only portions of some composers can be found. Mozart's body is, for instance, missing. The German papers declare they have found the bust of the composer. But its identity is at least doubtful. Mozart's friends feared the rain, and bolted home before the "common grave" was closed. When the widow visited the graveyard there was a new grave-digger who could not point out the vault where Mozart, with fifteen or twenty others, lay buried. To this day the grave is unknown. Haydn's skull is missing, but it is well known to be in the possession of a physician at Vienna, who, it is assumed, can be compelled to give it up. The skull was stolen and another was sent to Prince Esterhazy in its place.

DR. OPPOLZER, of Vienna, is announced to issue a very extended table of eclipses, including about eight thousand of the sun and more than five thousand of the moon, which have occurred and will occur between the years 1267 B. C. and 2161 A. D. There can be no doubt that the list will be an exhaustive one, but of its value, even to astronomers, there is room for question. Not very much of interest attaches to eclipses of the remote past except as aids to the location of important historic events and the correction of the tables of the lunar motion. It is fair to the investigators of the last hundred years to say that they have pretty well ransacked the ground in both these directions. In the latter department of research the eclipses have been of great service, though the observations of these phenomena were only made up to a comparatively recent date. They have furnished data for determining the average rate of the moon's motion with a degree of precision that would seem to leave nothing more to be desired, since the possible error of the deduction is very much less than a second in a century. The attention of the few astronomers who are yet working at the problem is now directed to the elimination of errors so small that they can only be detected by the refined methods of observation adopted since some of them were born. As for the eclipses of the future, it may be hoped that the labors of these men will enable them to be calculated with a precision which is not now attainable, so that the work will have to be gone all over again at some time in the future.

The aching back, the aching skin, the aching eyes, give way speedily before Hunt's Remedy.

"Any physician who has used it will testify to the excellence of Hunt's Remedy. Hunt's Remedy is a standard remedy for dropsy and kidney disease."—Gilbert Clark, M. D.

This late Commodore Garrison was a man of herculean build, and many stories are told of his feats of strength in his younger days. An old friend of his says: "His presence was inspiring, and he had a breadth of shoulder that was herculean. I saw him once lift a barrel of flour, with a man on top of it, and throw them both off a dock as easily as one would fling a terrier. The man had made a remark that the Commodore objected to, and without saying a word the Commodore threw him overboard. He wasn't called Commodore then—only Captain—and wherever Capt. Garrison was he 'ruled the roost.' In the early days of '50 he was accredited with rescuing a friend of his from twelve border Mexicans while in a saloon. He broke two of the men's necks by flinging them from him, and fractured another one's skull with a blow of his fist."

To thoroughly cure scrofula it is necessary to strike directly at the root of the evil. This is exactly what Hood's Sarsaparilla does by acting upon the blood, thoroughly cleansing it of all impurities, and leaving not a taint of scrofula in the vital fluid. Thousands who have been cured of scrofula by Hood's Sarsaparilla, testify to its wonderful blood-purifying qualities. Sold by all druggists.

Union Square, New York, is drugged with unaccipious actors.

The zealous partisans of presidential candidates are kept busy nailing the "campaign lies" that are freely circulated by either side regarding the opposition. The dealers in Miehler's Herb Bitters are kept busy supplying the demand for this great remedy for dyspepsia, liver complaint, indigestion, kidney trouble, nervous disorders of various kinds, and all diseases of the blood. C. A. Ellis, druggist, Bath, Ill., writes: "Your medicine sells well here; it gives good satisfaction and the demand is increasing."

The Bible society issued last year 4,161,012 copies of the bible.

We all say that we feel the necessity in the spring of tuning up our system and no better tonic than Dr. Nichols' Bark and Iron can be found. The medical profession have prescribed it for more than twenty-five years. 15-4w

A New York theater advertises itself as "the comedy box."

**Father, Mother, and Three Sisters Dead.**

Mr. David Claypool, formerly Sergeant-at-Arms of the New Jersey Senate, and a Notary Public at Cedarville, Cumberland Co., N. J., makes the following startling statement: "My father, mother, and three sisters all died with consumption, and my lungs were so weak I raised blood. Nobody thought I could live. My work (ship-smithing) was very straining on me with my weak constitution, and I was rapidly going to the grave. While in this condition I commenced using Miehler's Herb Bitters, and it saved my life. Because it was so difficult to get it in this little place, and I had improved so much, I stopped taking it for a time, and the result is that I have commenced going rapidly down hill again. Somehow, Miehler's Herb Bitters gives appetite and strengthens and builds me up as nothing else does, and I must have a dozen bottles at once. Use this communication as you please, and if anyone wants to be convinced of its truth, let them write me and I will make affidavit to it, for I owe my life to Miehler's Herb Bitters."

The secret of the almost invincible relief and cure of consumption, dysentery, diarrhea, dyspepsia, indigestion, kidney and liver complaints, when Miehler's Herb Bitters is used, is that it contains simple, harmless, and yet powerful ingredients, that act on the blood, kidneys, and liver, and through them strengthen and invigorate the whole system. Purely vegetable in its composition; prepared by a regular physician; a standard medicinal preparation; endorsed by physicians and druggists. These are four strong points in favor of Miehler's Herb Bitters. Miehler's Herb Bitters is sold by all druggists. Price \$1.00 per large bottle. 6 bottles for \$5.00.

Ask your druggist for Miehler's Herb Bitters. If he does not have it, do not take any other, but get a postal card to Miehler's Herb Bitters Co., 125 Commerce Street, Philadelphia.

# PINKETTES.

ARemarkable Cure of a Horse.

Col. James L. Fleming, a prominent grocery merchant, a member of the firm of Fleming & Lott, Augusta, Ga., makes the following statement of the treatment of a valuable horse with Pinkettes:

In the fall of 1881 I had a valuable colt taken with a severe case of pinkie, which resulted in the most fearful case of blood poisoning I have ever seen. After eight or nine months of doctoring with every remedy I could hear of I despaired of a cure. At this time the horse was unable to move, an account of swollen limbs. His right hind leg was so large as a man's body, and had on it over forty running sores. He had also a large number of sores on his body and other limbs. He was most pitiable looking object, and I was forced to end his suffering with a shot gun. He was a valuable animal and I did not want to lose him. After reading my friend in Washington, D. C., of the merits of Pinkettes, I bought a box of Pinkettes. I knew it was invaluable to the human family as a blood purifier, and why should it not be for the animal as well? I did not hesitate, but sent last July to Atlanta, for a supply.

I began the treatment with box of S. R. S. and box of water three times a day. The colt continued for a week. The I increased the dose to box of each and continued for a week. Then I increased it to box, and run it a week, when I went back to box, again. The result was that the colt was cured. I bought the horse back for four months. He had not had a running sore since. At the end of the second week even greater improvement was apparent for many of the sores were healing nicely, and the horse manifested a desire to move about. At the end of the third week he began to show a gain in flesh, and had a full appetite. The swelling has almost disappeared. I used all up after five or six boxes of Pinkettes, and when I quit the use the horse had only four small sores left on him, and they healed up immediately.

In August last all symptoms of the disease passed away, and up to date no signs of the return of the trouble have made their appearance, and the horse has done a mile's work on any day.

I regard it as one of the most remarkable cures I have ever known. Thus this great medicine has proven a boon to the animal as well as to the human race.

## Fort Wayne Paint and Color Works.

No. 12 West Columbia Street Fort Wayne, Indiana.

# To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinders of Colors, where you can buy your Paints from first hand instead of paying the middle man his profit, which are from 25 to 33 1/3 per cent. O. L. STARKY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1884, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the cans says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of Gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my price and quality of goods with any manufacturer in the United States.

## Indignant Women.

This afternoon forty-three enraged women waited on Mayor Muhler. The cause of their anger was the presence of Poundmaster Woenker in the east end. The women all own cows and insist on pasturing them on the fertile fields that abound in the Eighth ward. Mr. Woenker objects and looks the cows up. This outrage the ladies will not stand and with one voice informed Mayor Muhler, who stood in their midst, while perspiration fell from his forehead in bead-like drops. The women are now looking for John Mohr.

## Frank Urbine Arrested.

She has also filed another affidavit, charging him with deserting her and not providing for her support. Last week Urbine gave his two children away to his mother and then removed her to the country and, as she says, came back to the city and is living with the Bennett woman, above his saloon. There was also an affidavit filed against the Bennett woman for prostitution. These cases are before Justice Ryan.

## The Locusts a Good Thing.

It will hardly be fair to our infrequent guest, the seventeen-year locust, to accuse him of doing wanton damage and making himself a general nuisance. A close student of nature, who has observed the locust in former visits to some purpose, says that the killing of the young twigs which it accomplishes is really a benefit to the tree, and that when his race is run and he returns to the ground to burrow his way so deep that it will take him seventeen years to get back, he does still more for the trees and the soil, by loosening it with his tunneling. Fruit growers count on better apple crops for the half dozen years after a "locust year" than for the half dozen years before they appear.

## The Freight Rates.

A leading official of the Pennsylvania road on Saturday last remarked to a reporter of the Philadelphia Press that representations which have been repeatedly made that they intend to withdraw or had given notice of a withdrawal from the trunk-line pool are utterly without foundation. They are in the pool to remain until there is no possible chance to keep it together. They are in hopes that after the 1st of July, until which time the pool has been extended, some final agreement will be reached. The Grand Trunk and the West Shore, according to the statement of the Pennsylvania officials, are the only companies that have ever given notice of a withdrawal from the pool.

## DOCTORS' DAY.

The County Commissioners Appoint the Poor Physicians and Award the Medicine Contract.

Yesterday was doctors' day in the county commissioners' court and the legislators disposed of the applications to attend to the county poor, fixing the salaries as the various propositions called for.

Dr. H. V. Sweringen was elected secretary of the county board of health and his salary is \$160 for Dr. Wheelock's unexpired term.

Dr. W. H. Meyers was appointed to attend to the pauper poor of the city of Fort Wayne and the city hospital for \$200 a year. He was also appointed physician for the county asylum, jail and Wayne township for an additional \$100.

Dr. J. M. Dinnen was selected to attend the poor of Wayne, Washington and Adams townships, within the city of Fort Wayne, and also the St. Joe hospital for \$200 a year.

H. W. Mordhurst was awarded the contract for furnishing the medicine for the pauper poor of Wayne township, the county asylum and jail, for \$360.

Dr. L. N. Meyers will attend to the poor of Jefferson township for \$75. Dr. Dr. L. S. Null gets Adams township for \$125; Dr. H. E. Adams, Maumee township, for \$60; Dr. L. L. Kryder, Cedar Creek, for \$74; Dr. C. W. Gordon, Washington, for \$90; Dr. J. L. Smith, Madison, for \$70; Dr. B. F. Lipow, El River, for \$70; Dr. G. N. Worley, for Marion, for \$40; Dr. J. M. Schutt, Springfield, for \$75. There are still a few other physicians to be appointed.

## THE NICKEL PLATE.

Its Earnings Increased to a Remarkable Degree by Through Freight Business.

The appended statement shows the total earnings of the New York, Chicago and St. Louis railway for the first five months of 1885, and a comparison with the figures of 1884. The remarkable increase of \$14,683.77 is shown in the first three months over the earnings of the same period last year, and the still more remarkable increase of \$10,693.68 is shown in the earnings of May 1885, over the earnings of the same month last year. This record is remarkable because it was made in spite of the lowest rates, freight and passenger, ever known in the history of railroads, and it is still more remarkable because the business of the Nickel Plate has been almost exclusively through business, and this business more than any other has been affected by the rate war. But in spite of these facts, while other roads have been making great gaps on the minusside of the earnings of last year, the Nickel Plate has been filling up a steady increase. There is something in these figures worth considering:

	1885	1884
January	\$28,553.98	\$25,100.25
February	\$28,457.66	\$25,100.25
March	\$28,616.61	\$25,100.25
Total	\$85,628.25	\$75,300.75
Excess for first quarter	\$10,327.50	

The loss of \$45,732.25 in February was caused by snow blockades, but was overcome by increased earnings in January and March. A comparative statement for the first two months of the second quarter is as follows:

	1885	1884
April	\$25,254.34	\$25,100.12
May	\$22,436.72	\$25,100.12

This makes a total increase of \$29,509.47 for the first five months of the year 1885 over the first five months of 1884. The total earnings for the year 1884 were \$1,207,691.50. If the present rate of increase should be continued during all of 1885, there would be in round numbers some \$75,000 to add to the above total figures for 1885.

## The Wabash Has Not Fixed It.

The traffic agreement between the Cincinnati, Wabash and Michigan and the Wabash, St. Louis and Pacific railroads for the use of the track of the former line between Wabash and North Manchester, particulars of which were given in THE SENTINEL last week, is held in abeyance at present. Traffic Manager K. H. Wade, of the Wabash, stating that he is conducting negotiations with the stockholders of the Indianapolis, Pittsburg and Chicago for a new lease of the track of that road from Denver to Peru. Mr. Wade, however, explains that he may need the Cincinnati, Wabash and Michigan track within thirty days in case he fails to agree with the Indianapolis, Pittsburg and Chicago people.

The Cincinnati, Wabash and Michigan railroad has begun the erection of a commodious passenger station on the site of the structure destroyed by fire last Thursday night.

Mrs. Woodworth's Meetings.

Sunday closed the twenty-third day of the labors of Mrs. Woodworth at Kokomo, which have been remarkable in the annals of the local history. Vehicles of all sorts began pouring into the city at an early hour, and by the appointed time for services fully six thousand people from the country and surrounding towns were in the city. Nothing short of a circus or a political rally ever before

brought in so large a crowd. The mammoth skating rink, capable of accommodating twenty-five hundred people, was filled to overflowing, and street-meetings had to be held afternoon, morning and night. Rev. Wm. Hile, of Greensborough, Ind., assisted by Mrs. Woodworth, baptized eighty-two people in the presence of five or six thousand people in Wild Cat creek. Mrs. Woodworth will now rest for a few weeks at North Manchester and then come to Fort Wayne.

By Telegraph to THE SENTINEL.

CHICAGO, June 16.—Early this morning Andrew Anderson, a Swede, aged thirty, and Julius Johnson, sixteen years old, were halted on the street by a policeman, who thought the pair were acting suspiciously. ## The Virgin's Kiss.

The following description of the "Virgin's Kiss," an ancient mode of punishment is taken from the Newcastle (England) Chronicle:

"The 'Baiser de la Vierge' was a mode of execution practiced in olden days at Baden-Baden, during the time that a Vehengericht held its gasty court in the vaults beneath the (so-called) Nene Schloss. I extract the following account from 'Murray's Hand-Book of Northern Germany.' After describing the dungeons, the writer says:

"In one chamber, loftier than the rest, called the rack chamber (Folter Kammern) the instruments of torture stood; a row of iron rings, forming part of the apparatus, still remains in the wall. In a passage adjoining, there is a well or pit in the floor. The prisoner, upon whom doom had been passed, was led into this passage, and desired to kiss an image of the virgin, placed at the opposite end; but no sooner did his feet rest on the trap-door than it gave beneath his weight, and precipitated him to a great depth below, upon a machine composed of wheels, armed with lancets, by which he was torn to pieces. This dreadful punishment was called the 'Baiser de la Vierge,' and the fatal pit with its trap-door and obliques—because those who were precipitated down it were oblivious—never heard of more. The secret of this terrible dungeon remained unknown until, as the story goes, an attempt to rescue a little dog, which had fallen through the planking above the pit, led to the discovery, at a depth of many yards, of fragments of ponderous wheels set round with rusty knives, with a portion of bones, rags, and torn garments adhering to them."

## A Subtle Distraction.

"How are you, Charles? Haven't seen you for an age. What are you doing now?"

"Peddling chestnuts."

"So you have quit the minstrel profession, eh?"

"Oh, no! I am still the end man of the troupe!"—Pittsburgh Dispatch.
